INGREDIENT

Composition (in 6ml)	Dosage (in 6ml)
Chlorophyllous liquid of Sasa (Equivalent to 19g of raw Sasa)	4.8ml
Akamatsu-ba extract (Japanese red pine extract) (Equivalent to 232mg of raw Japanese red pine)	18.0mg
Ninjin extract (Ginseng extract) (Equivalent to 58mg of raw Ginseng)	10.8mg

Inactive ingredients: paraben

CAUTION

Since the medicine contains crude drugs, the liquid color may vary for individual products, however this has no influence on the efficacy of the medicine.

PRECAUTIONS FOR STORAGE AND HANDLING

- (1) Keep all medication out of the reach of children.
- (2) Store in a cool place free from direct sunlight.
- (3) Not to touch the spout directly when opening and taking to prevent quality deterioration by a contamination from hands.
- (4) Be careful not to cut fingers when opening and separating off a plastic loop.
- (5) Store in refrigerator with putting cap back on the bottle after opening, and use up as early as possible.
- (6) After opening, content fluid may spill in case of carrying the bottle with the part of cap and/or keeping the bottle sideways under a condition of failing to close the cap tightly.

- (7) Do not transfer to another container to prevent misuse and quality deterioration.
- (8) Since the medicine is herbal extract formulation, ingredient such as amino acid may attach to the side or the bottom of the bottle, however this has no influence on the efficacy of the medicine by taking after shaking the bottle.
